Symposium and Summer School

## Fundamental principles of cancer biotherapy

Dear Colleagues and Friends!

Welcome to register and submit abstracts to participate in the international symposium and summer school on cancer biotherapy uniting basic, applied researchers and clinicians.

Full details of the meeting, speaker program, registration procedure, and training activities will be available soon on the IEPOR and VACTRAIN websites.

**Main scientific areas:** Molecular and cellular pathobiology; Tumor metastasizing and a role of micro-environment; Search for new diagnostic and prognostic markers; Identification of potential targets for target therapy; Personalized treatment; Cancer vaccines; Tumor immunology.

**Satellite events** would be held during the Conference “United with a goal: experimental oncology for practical medicine” and practical workshops on modern methods of molecular oncology and tumor vaccines.

**Participation in the meeting is free.**

To attend, please, register by sending e-mail to Elena Kashuba ([lenakash@yahoo.com](mailto:lenakash@yahoo.com)) and/or Larysa Kovalevska ([kreyl@yahoo.com](mailto:kreyl@yahoo.com)). Registration is by the principle “first come, first served”.

**Attendance costs.** Organizers cover attendance costs (travel, subsistence and logging) for researchers from Ukraine and Riga Stradins University.

**Abstract Submission.** We invite all interested researchers to submit abstracts before May 7 to Elena Kashuba and/or Larysa Kovalevska. Abstracts will be peer-reviewed and published in Experimental Oncology Journal.

Looking forward to seeing you all in Kyiv!

Kind regards,  
on behalf of organizing committee,  
Vasyl Chekhun, Academician of NANU,  
Elena Kashuba, PhD, Dr Hab.

You will find more information soon on the web-sites:
