Kiev — capital of the Ukraine, is one of the most ancient Slavic cities, known as "Mother of Russian Cities", now is the modern political, economic, scientific and cultural center in the East Europe. The Conference will be held in the House of Scientists of the National Academy of Sciences of Ukraine. It is located in very old upper part of the city near the ancient historical monuments such as "Golden Gate" and St. Sofia Cathedral. The special social programme for our guests will be proposed to see the most famous places of Kiev. Special interests of our guests may be satisfied too. The early October weather is very favourable for the friendly atmosphere of the meeting.
